LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Rosario, 16th.

Opera drew an immense crowd last night for the benefit of sufferers in Rioja and Catamarca.

Two hundred sacks of grain for the sufferers arrived here to-day from San Nicolas, carried gratis by the 'troperos.'

Some Paraguayan sailors drove about town last night, in an open carriage, causing great commotion.

Montevideo, 16th.

King of Holland opened Exhibition at La Hague on May 1st. Great enthusiasm; 25,000 men are engaged in finishing the building, which is very backward.

New Brazilian Cabinet not known yet.

President Santos wrote a congratulatory note to the Paraguayan Consul on the anniversary of his country.

THE "NOVILLO."

One of the most remarkable features of the present admittedly prosperous state of this country is the very prominent position of the estanciero. Not since the fall of Rosas has the estanciero and his interests come so much to the front as now. The aim and ambition of nearly every one in the Plate who has a little surplus capital is either to purchase estancia land as an investment, or purchase and stock same as an occupation. The result is, that our cattle estancias are increasing much faster than our sheep farms, all the new lands being more adapted to cattle than to sheep. Even in the most out-of-the-way places we now and then accidently hear of some of the richest men in town having establishments out there; and it can hardly have escaped the attention of our readers the application of the mayordomo of a new estancia of Mr. Anchorena, to the Frontier Officer, for troops to defend his place, somewhere in the locality where poor Mr McClymont was killed.

The progress of the Plate could hardly be based upon a surer foundation than upon the growth of the estanciero; and when we publish all these repeated sales of estancia lands in the new frontier camps we feel a high satisfaction that capital and speculation have entered so safe a groove. Ten years ago the Melincue camps were not worth the price of the title-deeds; to-day they are productive, and easily worth from 12,000 to 14,000 pats. per league.

The increase of cattle on these new lands is, generally speaking, much larger than in the inside partidos; and the very sharp fall which the price of cattle has experienced within the last twelvemonth is attributed more to the increase of cattle throughout the Province than to the fall in the price of jerked beef and other saladero produce.

The saladero faena for the present season shows a very marked falling-off in this Province and the Rio Uruguay, compared with the killing of former years, whilst the saladero killing in Montevideo shows a very important increase.

These matters seem to be attracting attention in high quarters; and President Roca, in his Message to Congress, proposes the abolition of export duties on saladero produce—a measure which we hope to see Congress carry out, as the saladero industry in the River Plate has not been over-flourishing for very many years, and has been sadly overtaxed. The faena this season shows that the saladeristas in this Province are, from one cause or other, unable to keep their business up with the supply of novillos. The faena is now nearly over, and on every estancia in the Province, whether big or small, there are novillos for sale. Next season the supply will be much larger, and in three years hence we shall require double the number of saladeros in this province that we have at present, otherwise we shall be all enveloped in fat novillos.

It is a coincidence that the new Governor of Entre Rios, General Racedo, when opening his Chambers the other day, should have echoed the sentiments of President Roca respecting the abolition of the taxes on saladero produce. Over and over again have we, for years past, called attention to the unjust and improper taxes imposed by the Entre-Riano Government on saladero produce; and we are happy to see that the new Governor of Entre Rios thoroughly coincides with us in our views, and his remarks are so much to the point that we feel much pleasure in reproducing them.

His Excellency Governor Racedo, in addressing the Chambers, said:

"Messrs. Deputies,

"I commend to your particular attention the decadence of trade in jerked beef and tallow, owing, no doubt, to the crisis through which the greatest industry of the River Plate, the saladero, is passing. The origin of this crisis is attributed to the competition between jerked beef and preserved meat and extract of meat, which are now manufactured on our frontiers and by companies with large capitals. This new method of exporting meat and extract of meat has received such great acceptation in Europe, and by foreign Powers, such as Germany, that the consumption of jerked beef is limited to the coast of Brazil and Havannah; and even in the latter places business has so much fallen away that several large exporting houses of the River Plate have failed, which has paralysed the faenas of some of our largest saladeros.

"Although many Brazilian capitalists are now feeding their slaves with preserved meat and extract of meat, as an improved food, and supplying greater force for production, nevertheless jerked beef has its future, because it is so much cheaper than the produce of modern science; and it only needs to be free from taxation to compete in any market with other products. To this end we should immediately suppress all taxes upon saladeros; but this will require much study, since the tax proposed to be abolished is pledged for the service of the Provincial debt."

We congratulate estancieros on the improved tone of our political economy. No better sign for the Plate than the novillo raising his head in Congress and in our Provincial Legislatures. Excessive taxation has almost done for our saladeristas; from the top of the horn to the tip of the cow's tail ever atom of the animal was taxed.

Free saladero produce means much for this country. It points to the revival of an industry once the greatest in this country, and which for the last 20 years has been languishing, owing to the Indian and the tax gatherer. In the new departure which this country is taking, both these worthies fade from the glimmering landscape, and the free novillo, bounding over the pampa, takes their place. There is no staple in the world to rival the novillo.

LANUS MEETING.

Owing to the excitement which prevailed in sporting circles for some time past, it was expected that this meeting would have been a brilliant success. The weather was splendid, the ground was in good condition, the horses were all there, and still I am compelled to admit that the meeting, if it was not a failure, did not at all give the results which were confidently and reasonably expected. The races, such as they were, were good.

Two ended in a walk over, for Balmoral and Mascotte respectively, whilst of the others the Buenos Aires Handicap was virtually run away with by Tom Pinch. The cause of the walk over resulted from the dissatisfaction of Colonel Bosch with the Judge's verdict in the 1st race. He considered the race unfairly judged and withdrew all his horses on the spot.

The first race was judged as follows:

Ladies Purse

1000 metres. Prize $ 10,000 m/c. Weight 105 lbs.

1,000 metres. Prize $10,000.

Ecurie' Prisonero, Poplin by Petrarch
Opaline, 119 lb..... 1
F. Urquiola's Scipion, 105 lb..... 2
Only two ran; won easily by about a length.

High Life Race.

1,850 metres. Prize $10,000.

Ecurie Prisionero's. Mascotte by Craig Millar, Cornelia walked over.

This brought a pleasant but rather doubtful day with regard to success to a close.

Had the committee been able to select a holiday for running off the events, there is no doubt but that the results would have fully equalled all expectations. This, together with the 'contretemp' over the first race produced the only halt in the day's proceedings which otherwise scarcely left anything to be desired.

ARGENTINE GEOGRAPHICAL SOCIETY.

On Tuesday night the rooms of the Geographical Institute were crowded with members and writers to witness the distribution of prizes, awarded by the Jury of the third Geographical Congress in Venice to Argentine exhibitors. Dr Plaza, our talented Minister of Foreign Affairs, opened proceedings; his inaugural speech was listened to with much attention, as it embodied the geographical history of the country, and bestowed well deserved praise on the men who had made so many efforts to reveal the great resources of the country. He praised Captain Moyano much for his disinterested services; this gentleman refused the prize awarded to him at the exhibition in order to vote on the Jury appointed for the occasion. Over a score of nations figured at the exhibition in Venice, and the Argentine Republic took 20 prizes.

The distribution of prizes then began. Gold medals were given to the following gentlemen:—

To Colonel S. Olascoaga for his splendid work on the topography of the Rio Negro and Pampa.

To Dr. German Burmeister for his monumental work on the Argentine Republic.

Silver medals were handed to:—

Dr. E. S. Zeballos for his Conquista de Quince Mil Leguas, Descripcion Amena de la Republica Argentina, and Viaje al Pais de los Araucanos.

Francisco P. Moreno for his work Viaje a la Patagonia Austral. This work of the young naturalist deserves a gold medal, as he may claim it as the first description given of these parts.

A note of high distinction was given to the representative of the National Meteorological Office.

Honorary mention were made of General Mitre, C. Somer, R. Lista, M. R. Trelles, V. G. Quesada, Geographical Society of the Capital, etc.

Champaign closed the evening; speeches were made and everything passed off well. The Society is very prosperous and is doing much to spread a more accurate knowledge of the country at home and abroad. At 10 p.m. this intimate soiree of friends and scientists broke up. Dr Zeballos was congratulated on the success of the entertainment.

RAILWAYS IN THE INTERIOR.

THE SALTA EXTENSION.

The following important telegram from the Minister of the Interior has been received by the President of the Republic:—

Tucuman, May 13th.

To the President of the Republic.

The Director of the Department, Mr. White, and the engineers visited and inspected on the 9th, the railway works as far as Saladillo, the tunnel, the viaduct and brick factory. On the 12th they continued the inspection as far as the Rio Vispo, going on horseback, the better to examine the works.

Last night Messrs. White, Coghlan, Tedin, Brian and Villanueva had a long conference and, I am glad to tell Y.E., came to the following conclusions: That the works are of great importance, owing to the amount of labour done which they represent, and the nature of the ground on which they stand. The works are well done, the height of the earthworks and the depth of the cuttings being remarkable. The brick factory is a very important one and works regularly, the bricks being of the primest quality. The difficulties at first met with have been overcome, and the out-put is now 25,000 daily, and will very soon be 40,000.

The slow progress of the extension is fully accounted for by the nature of the works, the hardness of the ground, the lack of materials during the first year, and the many obstacles that had to be surmounted. The first 69 kilometres involved the removal of 1,700,000 cubic feet of earth. Extensive embankments and cuttings have been made, and some of the former are from six to thirteen metres high. The deepest cuttings, some of them through rock, are from 6 to 19 metres deep.

All these difficulties have been overcome, and you may rely on the works being carried on with greater regularity and rapidity in the future. The line from Cordoba to Tucuman is in good condition and the service regular. Mr. White and all the engineers with us are satisfied with what they have seen and examined. There are some details which I shall have the honour of explaining to Y. E.

On my own part, I have visited the works to some distance beyond Saladillo. I passed through the tunnel and inspected the brick factory, and everything else I possibly could in such bad weather as we have experienced, and I assure Y. E. that I am quite satisfied and greatly impressed with the physical aspect of this Province, its hidden riches and its sugar plantations, which are all on a grand scale.

As for the administration of the railway works, I have held converse with the Governor and the principal citizens of all classes, and I only heard one opinion on the matter, and that is, that honesty, order and zeal are its characteristics. When I return, I shall have the honour of explaining to you whether it was or was not possible to have adopted another route and thus saved the cost of the tunnel, and part of the viaduct. It has not been clearly proved that this was practicable; but neither is there proof of the contrary, but now it would be inexpedient to change the route of the line. Mr. White has deeply studied the point, and agrees with me on it. Messrs. Coghlan and Brian have shown the greatest anxiety to be of use to the National Government, and Messrs. Tedin and Villanueva, Managers of the Andine and Central North lines, have given Mr. White great assistance during the inspection. Messrs. Cassafouth and Pirovano, C.E's., and Dr. Brachebusch were also of the party and, like all the others with me, were favourably impressed. I must also express my thanks for all the friendly demonstrations made to me in this Province.

I salute Y. E.

B. de Irigoyen.

LATEST FROM RIO.

May 9th.

His Majesty opened the session of the imperial legislature on the 3d. In his speech he announced interruption of the progress of the revenue, and recommended reforms in the public administration, reorganization of the judiciary, development of provincial and municipal franchises, discrimination and division of the imperial, provincial and municipal services, reform in public instruction, localization of the slaves and other measures to assist private efforts for gradual extinction, and obligatory monte-pio in the case of State functionaries. On the currency question not a word.

No legislative business has yet been taken up in either chamber.

In his decision on the rival applications of the Paulista and S. Carlos do Pinhal railway companies, the Minister of Agriculture has refused to concede the steam navigation of the Mogy-guassú to either, he considering that it should be left untrammeled by concessions.

The Jockey Club of Rio proposes to hold this year an exhibition of native and foreign blood stock.

Since the heavy rains of the 26th to 18th ult. the weather has been cool, the yellow fever epidemic has declined and in the city mortuary returns have some days fallen much below ten. The shipping is practically free again from the disease, and thenumber of patients in the Jurujuba hospital has become reduced to under 30.

The Gustom House of Rio collected in April from Imports and Exports 3,521:188$, against 3,277:815$ in April 1882, viz., 2,933:585$ from Imports, against 2,736:786$, and 587:604$ from Exports, against 540:529$.

Mr John C White, Chargé of the United States legation, visited the Jurujuba yellow fever hospital last week, to see his sick countrymen there.

A liberal opposition has been organized against the Paranagua cabinet, which, we are told, has lost the confidence of the party and will be unable to carry any measure through parliament. From the declarations made at a meeting of the dissident deputies last week, the unpardonable sin of the cabinet has been its distribution of loaves and fishes to conservatives so freely that the remnants of the conservative feast provide merely a Barmecide one to the hungry liberals yearning to sacrifice themselves for their country. This split among the liberals leaves little prospect of a legislatory session.

Dona Maria Francisca Paranaguá, daughter of the President of Council, was united on Saturday the 5th in the bonds of holy matrimony with Conde de Barral, son of the Condessa de Barral e Pedra Branca. The ceremony was performed by the Archbishop of Bahia in the Chapel of the Palacio Izabel and was witnessed by their Imperial Majesties, their SS. HH. the Comte d'Eu and the Princess Izabel, and a number of other persons of rank and distinction. After the ceremony the bride gave freedom to her three slaves and Dr Seraphim Muniz Barreto also freed his only slave.

In this case of the marriage of the son of the former governess of the Princesses, a lady for whom the Imperial Family has always cherished feelings of grateful affection, with the daughter of the esteemed statesman at the head of the administration, their Imperial Majesties relaxed, by attending the wedding, the unwritten court etiquette which restricts intercourse between sovereign and subject. Their presence at the ceremony was therefore a graceful compliment which their Majesties accorded to Condessa de Barral e Pedra Branca and Visconde de Paranagua through their children, and danger to monarchy therefrom has only been conjured up by those intransigent organs of pseudo republican opinion whose zeal for the reputation of monarchy is so sweetly manifested in all their writings.

Emancipations continue in the order of the day. In Rio Grande do Norte the Messoro liberatory society was to celebrate the liberation of half of the municipality of Mossoro on the 2nd of May by freeing 35 slaves. At Campinas Visconde de Indaiatuba, A. P. Amaral and F. P. Amaral freed eleven slaves falling to them by inheritance, and the Visconde two others. In February 27 letters of liberation were registered at Sant'Anna do Livramento, in Rio Grande do Sul. A number of emancipations in ones and twos are also reported from various parts of the Empire.

The sum paid to the Rio Janeiro Gas Company, for works, etc, by any company or companies undertaking the gas lighting of Rio de Janeiro, is declared by the government to be 6,641:782$.

In regard to this gas lighting of Rio it is understood that the private watchword of the department of Public Works is:—No English need apply. We do not think, however, that any English outside of Bedlam will tender for a contract, not binding Government or Legislature, on conditions laid down, the greater part of the price of the gas to be paid in a depreciating currency which any political difficulty may render virtually valueless, and the contract subject to rejection, perhaps again after years of delay, by the Legislature.

The Cunapirú gold mining company in Uruguay has burst up, and we shall not be surprised to hear of similar explosions of some newly started Brazilian gold mining companies. Pocket mining in Brazil is usually apt to exhaust the mineral and shareholding pockets simultaneously, and the arts of 'salting' and of 'selecting' samples for scientific reports are not unknown.

A full Council of State was held April 28th, to deliberate on the state of the Municipal Chamber. It would seem that the majority opined against extraordinary measures, considering that the presidents of municipal chamber have powers sufficient to preserve order both within the chamber and in the galleries. A municipal notice now attempts to provide against repetitions of the disorders by prohibiting not only knives and sticks but even umbrellas being brought into the galleries. But no adequate provision appears to have been taken against the unruly tongues of the vereadores themselves.

The Government has, however, stationed twenty police at the Municipal Chamber, to keep the most illustrious vereadores and their capangas in check. In Buenos Aires foreigners are both eligible and elected to the Municipal Chamber, but it must be a matter of congratulation to the foreign colonies in Rio Janeiro that, as they are held unworthy of even a vote at a Municipal election, they are in no way responsible for the election of our Municipal rowdies.

LONDON LETTER.

(From our own Correspondent.)

PRIMROSE DAY.

April 19th.

"Himmelsschluessel"—and what is meant by that pretty German name? Would that the flower could open many an earthly mystery around us. To-day the statue to the late Earl of Beaconsfield has been unveiled in Parliament square. The effigy is a noble portrait. A Tory friend, with a bouquet of primroses, gleaming like a star in his Ulster, assured me that never had the robes of a British Peer been so deftly produced in bronze or marble as in that statue which stands under the shadow of Westminster Abbey, and at whose feet Peers and English gentlemen of all parties reverently stood with uncovered heads in a beastly fog and drizzling rain.

The primrose, as an English political emblem, is not meant to signify peace—with or without honour—but Empire. The Oriental mind of Lord Beaconsfield felt its superiority to his party, as well as to the average mind of his fellow-countrymen, in the ability he possessed of looking beyond the fact. There was in Lord Beaconsfield a dash of the seer. He did not in his person quite combine Moses and the Prophets, but the old instincts of his race taught him that though philosophers might preach of sweetness and light, and Quakers might rail against wars, in a commercially-minded people the lust of Empire exists, and only wants properly baiting to fetch out. The Rothschilds and Goschens knew the secret and potted a Radical Government.

In France, and even in Jew-baiting Germany, the lust has been excited in the same way and by the same people, and annexation is now the rage. I have sent you separately a carefully-compiled epitome of the annexation news, all the world over, on this Primrose Day, in April, 1883. The philosopher on reading it will, perhaps, parody the words of Karl Marx, after reading Mr. George's "Progress and Poverty"—"this is the last ditch of the capitalists"—meaning of individualism. The philosopher may say, on seeing wars of annexation, active or passive, indicative or potential, in Madagascar, the Congo, the new Hebrides, New Guinea, South Africa, Central Africa, North Africa and West Africa, with a little commercial scheme in West Africa, and threatened hostilities in Tonquin and China, and some lustful language in Australia, anent the Solomon Islands, that the final scramble has commenced, which in a few years hence is to initiate the period when the lion is to lie down with the lamb, if there is a lamb left. Her Majesty the Queen seems to have doubts in regard to lambs, for in the face of the wretched lambing-season, just gone by, she has issued strict orders that at Windsor and Osborne, and in the Royal household no lamb is to be eaten. Her Majesty means well, and her loyal subjects—particularly in hard-headed Edinburgh—have followed the tacit Royal command, and have also abjured roast lamb, that the delicacy has declined in price from 6s. 8d. to 10s. the whole animal. The butchers are ferocious, and even the farmers have to explain that the lambs have been fattened for the market, and it is now too late to think about stock. But ladies follow the dictates of their kind hearts, and are not supposed to enter into details. Maybe Mr. Archibald Brown has been having his first shy at the economic Government of Great Britain and Ireland. It is not successful. He had far better try and manage the bishops, who have got into a mess with General Booth, who asks for proofs of the statements they have made in regard to the morals of his company of apostles; and, so far, no proof is forthcoming. The bishops, says General Booth, thought they could make their statements and let the curtain drop, and there would be an end of the matter, but he begs to inform them that they are vastly mistaken. The General had a most successful meeting at Exeter Hall, where he showed the increasing might and prosperous position of the Army. The General gave "figures." Some of these figures are amazing. He collected at the meeting £10,000, of which a part was received in single subscriptions of £1,000 each. Some of the donors would be wealthy city men, who hoped to send Salvationist missionaries to New Guinea, West Africa, the Solomon Islands and other places, whom the Army might assist in thrashing French filibusters and thieves. God said, "increase and multiply and replenish the earth," but He never mean Frenchmen, Italians, and people who cannot make cheap cotton goods or a knife that will cut.

Lord Cairns has written a letter to the *Church Standard* in reply to a question whether he still entertains the favourable opinion which he expressed about a year ago upon the Salvation Army. He says that he is as much convinced now as he was then of the entire self-sacrifice, single-mindedness, and devotion of those engaged in directing this remarkable work. But he adds:—"I have been much pained by many things which have come under my notice in the further development of their operations. The language of irreverence—no doubt unintentional—in which some of their placards and advertisements are expressed, the 'orders' and instructions to the officers of the 'Army,' the teaching of some of their publications as to the Sacraments, and even as to the Bible, their financial scheme of inviting deposits, without adequate security, and of inducing contributions by the promiseto the donors of a high rate of interest for their lives—all these appear to me to be matters which offend much more seriously than merely against taste or judgment, and I regret to say that I would feel myself unable at present to speak of the mode of conducting the work of the Salvation Army, as I did a twelve-month ago."

"Now, Barrabas was a——;" no, now Lord Cairns is a lawyer, and is not the bit about "adequate security" delicious in its innocence? To every man his turn. As Lord Cairns and the Salvationists go down in the see-saw of time Mr. Bradlaugh goes up, and is at this moment triumphant, not only over Newdegate and the man Clarke, but, as I led you to anticipate, over the other man, Sir Henry Tyler. Mr. Bradlaugh threatens also to bring an action against another city Knight, the late Lord Mayor, Sir Henry Ellis, who allowed Sir Henry Tyler to examine Bradlaugh's banking account, and in so doing the Judge—I think the Lord Chief Justice—says he exceeded his powers. Lord Coleridge, by the way, seems sweet upon Bradlaugh all at once. I don't think much of it, except as a proof that the Bench is beginning to see that some recent decisions, independently of the merits of the cases, are inducing a new kind of "contempt of court"—

Believe it—doubt or reason as we can,
The biggest lawyer's but a penny man.
—Pope (?)

Now, I have left myself no room for dynamite and the "astounding revelations," &c., of the bills of this evening's papers. It all amounts to this—that a lot of cowardly fools in New York fancy themselves conspirators, and, under the orders of the "old man," Rossa, a screeching old idiot, bind themselves to secresy, and entice to their clubs poor ignorant young Irishmen, or equally ignorant young Americans, of Irish parentage, like the new informer, John Lynch, who came trembling to England at the bidding of those old miscreants, and follow the orders of agents like Whitehead and Gallagher. This poor youngster Lynch—or Mr. Norman, as he called himself—was working honestly at good wages in New York. He was induced to join a Fenian club, and finds himself in this mess in London, evidently not knowing what he was doing or had to do. He has turned informer and that is the best thing he could do. You will see the evidence as far as it goes; and it is already sufficiently plain to expose the ignorance, folly and blackguardism of the Dynamite Clubs in New York. Whitehead seems coarse and violent, and Gallagher not much wiser than Lynch. He calls himself a physician, but his brother, who appeared in court, is a labouring man.

The whole thing is contemptible; and the contempt it must gain in America, and even in Ireland, will be of great service.

As to the Phœnix Park business, Curley has followed Brady into the condemned cell. It is now Kelly's turn, who will be followed in the dock by Fitzharris—"Skin the Goat"—and after that it is thought the rest will plead guilty, and we shall get rid of them and probably of the whole scare.

Next session, if Mr. Gladstone lives or remains in power, or in the Lower House, a great number of reforms will be passed that concerns Ireland as well as England and Scotland. But Mr. Gladstone is aging fast. It is hardly fair to keep him in the House of Commons.

POLITICAL GEOGRAPHY.

1883

OPENING OF THE GRAND INTERNATIONAL ARMAGEDDON.

FRANCE AND TONQUIN. A SERIOUS CONFLICT EXPECTED.

London, April 19th.

The French troops in the delta of Tonquin now number 300, besides a battalion of sharpshooters from Saigon. France has three gunboats on the coast and a few light armed sloops, which will shortly be joined by several gunboats from Toulon, conveying a thousand marine infantry. A Chinese squadron has been ordered to cruise for a month in Red River. A serious conflict with Annam is believed to be inevitable, as the feeling in the capital, fomented by the mandarins, is greatly exasperated against the French representatives.

The openly declared intentions of the French have been—since Admiral de la Grandiere declared in 1865 that "France was summoned to resume in Indo-China the place she had lost in India"—(1) To annex Tonquin and force a protectorate over the remainder of Annam. (2) To open up inland trade communication with the south of China. (3) To annex the provinces of Siam lying, in the valley of the Cambodia river. (4) To carry a railway up the Cambodia Valley, in order to unite Tonquin and Yünnan with Saigon. Then we are told that the Pangyet Woon is about to be despatched to Paris, in order to seek the intervention of the French to prevent the Siamese from acquiring certain Shan territory now independent of Burmah. French "intervention" in this quarter would mean the enlargement of their present programme to the annexation of the whole of Indo-China lying to the south of China and to the east of our Burman frontier. Mr. Colquhoun adds:—

"In any case the French annexation of Tonquin will mean an element of disquiet throughout Indo-China.... The only view that seems to be taken in this country regarding the French operations in Tonquin is that it may lead to a war between France and China, which will prove damaging to European commerce. Serious as such a result would be, it would be the smallest injury which could occur. The supremacy of French power in Indo-China would deal a blow to all trade extension on our part with Indo-China and China from British Burmah, would kill our existing trade in this region, and in the end, there can be little doubt lead to serious complications between this country and France."

The *Daily News* hears that the appointment of Peng Yuling as War Minister in China is regarded as conclusive evidence of the determination of the Chinese Government to resist French encroachments in Annam. It is expected that in the House of Commons this evening an effort will be made to elicit from the Under Secretary for Foreign Affairs some information as to what is now taking place in Tonquin.

THE FRENCH IN CONGO.

The *Paris* exults over the occupation of Ponta Negra by the French, and explains how this march was stolen on Mr Stanley by the vanguard of M. de Brazza's expedition. The first detachment of the French expedition to the Congo, consisting of M. de Lastours and a few other gentlemen, landed at Gabon a short time ago, and were to proceed up the country in the direction of Franceville, by the Lower Ogooue, to prepare the way for the chief of the mission. While they were thus engaged the *Paris* asserts that the ship which had brought them to the coast of Africa continued its course southwards, and seized on Ponta Negra, as stated in the despatches received through Lisbon. The little town of Ponta Negra, situated at the mouth of the Black River, is, it contends, not under the protectorate of Portugal, but is an independent district which M. de Bsazza intends to use as a starting-point. The *Paris* proceeds to describe Mr Stanley as probably foiled in his attempt to reach Brazzaville, and even Franceville, before the French expedition. It takes it as certain that Mr. Stanley's object in hurrying off to Africa was "to destroy French influence with the native chiefs." The *Paris* concludes with the following remarks:—

M. de Brazza has not yet landed, and already Mr Stanley has suffered a check. Some people think it is now to be apprehended that the defeat experienced by our adversary will induce him to quarrel with us and offer us an armed resistance. We are inclined to believe not. M. de Brazza is no longer the isolated traveller, without companions and without money, who was so disdainfully treated by the proud Yankee. He is a French officer charged with an official mission, well accompanied, well provided for; and he is a man who, desiring peace, will, if necessary, know how to wage war. Moreover, he possesses the immense advantage of representing a great nation; whereas Mr Stanley, a "lansquenet" of geography, represents nothing but money. French sharpshooters are not massacred like simple and inoffensive Africans.

A despatch from Bonny, dated March 15th, states that according to news which has reached that place "from Ambriz to Gaboon, the whole of the native places are in a most excited state.

Ambriz, when the steamer Corisco left, was almost entirely deserted, the merchants and traders making a wholesale exodus. Ambriz is under the Portuguese Government, and the Portuguese merchants themselves had all left. It was said that the Portuguese authorities were levying fresh duties and taxes which made it impossible to do business. A Portuguese war vessel was permanently stationed at Banana Creek, the entrance of the Congo, while a British war vessel was at Boma, further up the river. The United States Consul at Loanda had gone up the Congo with the object, it was said, of seeing how far American interests were affected by the action of the Portuguese. The American Consul was acting on instructions received from his Government, and his destination was said to be Stanley Pool. From Ambriz to Landana, and from Landana to Gaboon, the greatest excitement prevailed amongst the natives. It was stated that the Portuguese had intended to annex the former territory, whilst the French were to place their officials in possession of all the district from Gaboon down to Landana, the headquarters being at the last-named place. At each place the chiefs and natives had intimated their firm determination to resist to the utmost any attempt made to the illegal possession of the country. It was, therefore, feared that if any action of the kind were attempted by the French and Portuguese the bloodshed would be terrible.

A *Standard* telegram from Lisbon, dated Sunday night, says:—"Three Portuguese gunboats—the Quansa, the Bengo, and the Vilheña—are anchored in the river Congo. The Governor-General of Angola has established a post-office and a pilot station at Port Banana."

THE NEW HEBRIDES.

A number of Frenchmen have, the *Daily News* learns, taken possession of a Presbyterian mission station at Efate, one of the New Hebrides group. The missionary had been withdrawn in order to occupy a more important station, but it was intended to appoint another to take his place. A correspondent states that the natives protested against the aggression, but their remonstrance was unheeded. It appears that the proceedings at Efate form part of a scheme which a group of French adventurers have got up for the purpose of inducing the authorities of New Caledonia to annex the New Hebrides.

TELEGRAMS FOR MOZAMBIQUE.

The Eastern Telegraph Company announce that a gunboat will leave Zanzibar for Mozambique on the 18th inst, at 6 a.m. Telegrams must be handed in for transmission not later than Tuesday evening, and would be subject to about three days' delay.

The prospectus of another large scheme for opening up Africa has been sent to us. This time the field selected for operation is on the East Coast. The capital will be a million, and the idea is to acquire a concession to work mines and acquire lands in the province of Mozambique. The mining concession is said to cover 120,000 square miles, on the Zambesi.

The British Government has ordered the annexation of the large tract of country in West Africa between Sierra Leone and Liberia.

The revival of the popularity of canals is certain, sooner or later, to bring forth a crop of prospectuses of new companies, some genuine, the most otherwise. The design to make Paris a seaport is much talked of, and if the Manchester Ship Canal succeeds in making its way through Parliament it will be followed by similar schemes next session. The most promising of the foreign schemes is that to make a short cut from the Danube at Tchernavoda to Kustendji, a feat of engineering which, if accomplished, might have somewhat serious diplomatic consequences. Among the more ambitious schemes are the proposed construction of ship canals through Nicaragua, Florida, and the Malay peninsula. But in these latter projects there is more imagination than dividend.

Of all these ambitious schemes the most advanced is the Florida Ship Canal. The company, formed to cut the Florida peninsula, has already received its charter from the State Legislature. The capital stock of the company is fixed at between £8,000,000 and £12,000,000, in shares of £20 each. The canal is to be cut from the Atlantic, beginning at Nassau inlet, and following the Suwanee river to the Gulf of Mexico. It will be a tidal canal, 160 miles long, 100 feet broad, and 20 feet deep. Only fifty miles of land need to be cut. As the annual loss of shipping wrecked in threading the Straits of Florida is said to be £16,000,000, the need for the canal is obvious enough. The money, however, does not seem to have been subscribed as yet.

EDITOR'S TABLE

The fag-end of the Gironde's mails come on us yesterday, and a prodigiously large fag-end it was—papers from all quarters of the globe, from the Mauritius to Mayo, and New York to Nova Zembla. The only thing fresh that we find in them, in addition to what we published yesterday is, that Her Majesty had to be carried in a Sedan chair when leaving for Osborne on 17th ult., as she could not walk; and that the French and German papers are exchanging everything but compliments about the Triple Alliance. It is our humble conviction that there is mischief in this same triple alliance, and that one, if not two of its members will get mauled in the big scrimmage that is brewing.

Our concert reporter bolted off to Lanus yesterday without writing a report of the concert at the American Church on Tuesday evening, but we got enough out of him before he started to feel confident in saying that the execution of the exquisite sacrad music on the card was superb, and reflected immense credit on the choir of the church and its talented leader Mr Naghten. He also told us that nearly every girl in the room was as pretty as she well could be. After the ceremony the Rev. Mr. Thompson ascended the pulpit and made the agreeable announcement that the church was now completely out of debt; he thanked and congratulated his congregation on same, and made special reference to the generous munificence of Mr William Samson in connection with the splendid organ the church now possessed. Everybody went home delighted with the concert.

We have now ready in pamphlet form in English, the President's Message on opening Congress, and our subscribers and the general public can have it at the very low price of "thank you!" Merchants should file a copy for reference.

We have received by the mail an important paper on Zoopraxiography, which will greatly interest owners, breeders and trainers of Horses, who may as well come and read it in our office, as we may not have space to publish it till this day six months, and probably not even then.

"Un Ballo en Maschera" is announced for to-night at the Colon Theatre, with Madame Gabbi as Amelia. There is a certainty of a full house, as this opera is a great favourite with the Buenos Aires public.

A Rio colleague says:—"There has been a "sulky race" at Buenos Aires. The finest "sulky" race we ever saw was that of a boy driven to school by his mother with a broomstick. Talk of winged heels and flying feet!

Boccacio will be produced, for the 12th time, on Saturday night at the National Theatre.

We have received a number of the *Cachoerense* of Rio Grande which contains details of a gross outrage by the police on a British subject, Thomas Morgan, who was tied, ironed, beaten and otherwise ill treated by some police Jack in Office with whom he had a few words in dispute. The police magistrate seems to have supported his colleague in the matter; but the Chief of Police, Captain Job, released Morgan. The ill-treatment of Morgan was so unprovoked that there is a general cry of indignation in Rio Grande, and the British Consul at Porto Alegre has brought the matter before our Minister in Rio. The papers say that poor Morgan has been treated worse than Volpi and Patroni in Montevideo. He is in the employment of Messrs Wells & Co. of Jacahy, the great contractors.

We call public attention to the new conditions of the passenger service by Lamport and Holt's fine fleet. This company is like the Scots Greys—"Second to none"—and always keeps in the van of improvement when the public service demands it. Its brilliant success has been the natural consequence of this manifestly sound business principle.

The newest caricature paper is the *Manganga*. It promises faithfully never to publish a parliamentary speech, and, if it sticks to this, it has a chance of success. Parliamentary speeches in this country are the quintessence of somniferousness.

The distribution of the prizes won at the Continental Exhibition is still in "nubibus," and it appears that the matter has to go before Congress.

Dr. Irigoyen, Minister of the Interior, is expected in town early next week.

The coronation of the Czar is fixed for June 10th. The Argentine Republic should be represented, and there is yet time to telegraph to some of its European representatives to attend the ceremony. We take it for granted that they do not mind being blown up in their country's cause. By far the best man for the mission is the Consul General in Spain—Hector Varela.

All the best musical critics in town agree that the Colon opera company is good. The *Courrier* gives the artists very good advice, viz, not to believe what other artists who have been here before have told them about 'shouting' being popular with Buenos Aires audiences. It *has* been popular, but we are glad to see a more educated taste gradually dawning on the opera-going public.

A committee has been formed to give ex-General Mitre a grand reception on his return here.

Judging from the remarks of the Rosario papers they have a splendid Italian Opera Company up there. Madame Widmar, the prima donna, shines specially in Sonambula and Lucia de Lammermoor, and, if so, she must be a good artist. No mediocrity could shine in those operas. There is, however, one inconvenience in attending the opera at Rosario, that is if you go to the pit, as people in the upper tiers have an awkward habit of letting gingham umbrellas, lorgnettes and fans fall on the pates of those below, and a cracked skull is an unpleasant thing.

The 24th and 25th will be holidays, the former being the Feast of Corpus Christi. An appeal has been made to families who have gardens to send flowers to the Cathedral to adorn San Martin's statue on the 25th.

Mr Barley (queer name?) has got into considerable trouble at Bragado, for making away with 200 sheep belonging to a neighb

STIMULATE THE FALLING HAIR. If your hair is thinning out, remember that underneath the bare scalp there exist the germs for another growth, which requires a stimulant to bring it though the epidermis and produce luxurious tresses. Apply the Oriental Tonic often, using the hairbrush vigorously in order to excite the absorbing pores, so that they may receive it, and its effects, will prove beneficial. The experience of all those using the Tonic, is that it not only strengthens the hair, but also increases it. In warm climates where ladies inadvertently have recourse to delcterious oils, it will be found superior to dress the hair, imparting to it lustre, elasticity, and beuty.

ON 'CHANGE.

May 16th 1883.

Patacon	26.00
Cedulas A	100½
Cedulas E	85½
National Bank Shares	106½

The market presents the usual features of intermittent activity in Cedulas and of dullness in National Bank Shares. Many wonder at the stagnant aspect of speculation at a period when money rules easy and the moneyed outsiders as a rule dabble in operations at the ring. It looks very much as if speculation has entered a new groove; the experience of last year, the melancholy collapse of previous syndicates and the rather unsafe position of speculators since the heavy shakes of former settlements, have, no doubt, very much influenced the present deplorable absence of activity, and the indifference of the public. Money is going out of the Bolsa into lands on the frontier, to pay for cattle and wire-fencing—land is a sounder investment than the National Bank Share or the irrepressible Cedula of Series E, and times are so dull on 'Change that brokers are starting for Lincoln to gather "rodeos," or taking their passages for Europe.
Over one hundred thousand new Cedulas of Series E were thrown on the market this morning and speculators for a fall beafed the market heavily for cash and for the end of the month. Thus, over 100,000 changed hands for cash; rates opened at 85⅝, rose to 85⅞, fell to 85⅝ and closed at 85¾. Operations for the end of the month embraced 160,000 Cedulas; the market opened at 85⅜ and closed at 85⅝. Close on 100,000 changed hands for the end of June at 85⅞. Operations during official hours amounted to $375,000. The Cedula King bought heavily as usual and the market maintained a firmer aspect than was anticipated.
As the market has got tired of the old rumours about Series E, new ones are cropping up. There was some talk to-day about the payment of Cedula coupons in Europe; the approval of the Legislature, it is said, will now be requested to appoint bankers in London and Paris to effect the payment of the coupons of Series E. Not a word is whispered with regard to Dr. Llambi Campbell's mission and nobody appears to know anything about his movements. The bears state that the Bank is issuing Series E freely, and that the stock is coming strong on the market.
National Bank Shares have arrived at a stand-still; operations this morning embraced a paltry lot of 350 shares. One hundred sold for end of month at 106½, and 250 for the end of June at 107½ and 107¾, closing rate. The stock looks stiffer, but the vitality of speculation appears to be ebbing fast. The market has seldom been so dull as at present.
Although nearly every paper published in this city has taken up the question of the transport of cereals and of the miserable want of rolling stock on the Western Railway, neither the Provincial Government nor the Board of the Railway appear to have taken the slightest notice of the loud complaints. Since the press has not the slightest influence in the matter the "chacareros" of the West should come to town with their pitch-forks and apply "en masse" to the Governor for redress. Wheat and maize in Marcos Paz, Lobos, and at all the stations of that branch of the line, are lying in the camp (since the galpones of the station are too small) and the losses entailed are enormous. Contracts cannot be filled and new ones cannot be drawn up since neither the buyer nor the seller know when the produce will be delivered. Such a discreditable state of affairs is a worthy corollary to the fact that waggons, loaded with La Plata bricks, are lying for days and weeks in the Once Station; wheat and maize meanwhile are rotting in the camp. Dr. Jorge should take the matter in hand and clear himself of the blame of mismanagement which the present state of affairs entails. None need wonder if the export of cereals is at a stand-still; last year maize-men had shipped double the quantity of produce, and the harvest was smaller than the present one.
Advices per mail from Havre announce the sale in that market of a lot of superior La Plata wheat at 26 frs. per 100 Kilos; a large lot of different qualities was sold at prices ranging between 22 and 24.25 frs. Maize was in little demand, and prices looked downwards.
Messrs Dillmann, Zix & Co. under date Havre 15th ult., state in their circular that the wool market shewed some signs of revival, although operations were not large; prices had not changed, but a little more demand and symptoms of activity were noticed; good middling qualities of wool were in demand at the prices of last auction.
Several sales of wool in deposit were reported this morning in the Once. Woolmen state that these sales have been effected at falling prices.
Mr. R. Gowland was enveloped in friends to-day on his arrival from Lavalle, where he has started a fine estancia. He reports everything going ahead there. A party has bought a piece of land to start a mill, and Mr Manuel Mercado intends establishing a large store in the town next month. Over 100,000 head of cattle have recently passed through the partido for new estancias outside. There are not enough bricks in Lincoln to build all the new houses. Everybody is anxiously awaiting the whistle of the Transandine locomotives. Large areas of camp have been purchased by chacareros, and the whole partido is the scene of the greatest activity and prosperity. The diligence service from Bragado and Chivilcoy to Lincoln and Lavalle is first-rate, and the only want felt in the partido is the presence of more estancia-brokers.
The sales at the ring closing official hours were:—
Cedulas—
For cash A 13,000 at 100½
For cash E 112,700 at 85⅝-¾-⅞
For May 31st E 160,000 at 85¾-⅞
For June 30th E 90,000 at 85¾
Sales, 375,700
National Bank Shares—
For May 31st 100 at 106½
For April 30th 250 at 107¼-½-¼
Sales, 350
Mr. Jansen made his appearance at the ring to-day. His many colleagues welcomed him, and all join in wishing him success.

The following table of coal shipments to the Plate during the month of March will be found interesting:—
To Buenos Aires, 466 tons Liverpool; 3,287 tons Cardiff; 2,845 tons Scotland. Total 6,598 tons.
To Ensenada, 2,009 tons Newport. Tota 2,009 tons..
To Fray Bentos, 487 tons Cardiff. Total 487 tons.
To Montevideo, 894 tons Liverpool; 9,465 tons Cardiff; 791 tons Newport; 1,152 tons Scotland. Total 12,302 tons.
To Rosario, 541 tons Liverpool. Total 541 tons.
Total quantity 21,937 tons.
The exchange market shews no change; there are few drawers and few takers; operations house upon house reported at 49⅜.
During afternoon no operations were reported. The market was at a complete standstill.
An evening colleague announces the sale of four leagues of land outside Trenque Lauquen at $100,000% per league; also the sale of two leagues in 9 de Julio at $300,000% per league.
At the Plaza Once de Setiembre the following business done:—
100 waggons with produce arrived.
The sales were:—

51—SAN MARTIN—51
El Viernes 18 de Mayo 1883
A las 2 de la tarde
Venderemos al mejor precio y al contado un selectisimo lote de carneros y ovejas merinos (conocido por Rambouillet) procedentes de la gran cabaña del afamado criador francés Mr. Paul Bataille, quien tiene adquiridos en las Exposiciones europeas, los siguintes premios por sus magnificos carneros: 25 medallas de oro, 20 de plata, y 15 de bronce, entre las que figuran, primer premio en la Exposicion de Paris 1878; primer premio en el Concurso Internacional de Magdeburg (Prusia) en 1880; id. id., en el Palacio de la Industria, 1883 y otros primeros premios en los Grandes Concursos Chateaux Thiery, 1875; Arras 1876; Compiegne 1877; Lille 1879; Veully 1880; Versailles, 1881; St. Quentin, 1882 y Paris 1883.
Los animales denominados MERINOS PRECOCE son de un tamaño verdaderamente escepcional y como hasta la fecha no han vendido al pais; es esta la raza formada por los criadores franceses para competir con carneros ingleses Lincoln, Cotswold, &. Los hacendados que buscan animales para carne y que deseen conservar las lanas finas en sus rebaños, deben adquirir algunos ejemplares de estos; pues reunen ademas de su tamaño excepcional y de supeso escesivo y facilidad en el engorde, una finura extra en su vellon.
La importacion de este lote de carneros y ovejas, ha sido debido a la constante insinuacion de algunos compatriotas residentes en Francia, que han tenidos oportunidad de apreciar personalmente el grande y escogido rebaño de M. Paul Bataille.
Los Sres, criadores que deseacen mayores datos sobre esta importante raza reputada por M. Andre Sanson (Profesor del Institato Nacional) la primera de Francia, pueden leer en su tratado de Zootecnia, en el tomo 5º pag. 97 al 101, las palabras que les dedica y para mayor abundamiento y seguridad deinformaciones, leer la obra escrita por el citado autor y titulada "Revista Esperimental sobre el vellon de los merinos precoces y su valor como productores de carne", cuya obra fue coronado por la Sociedad Central de Agricultura y debe hallarse en la Biblioteca de Sociedad Rural Argentina.

Se rematara a la mas alta postura, pasando la base arriba estipulado, esta importante y esplendida propiedad aparente para renta, con los edificios que contienen, rodeada de importantes casas de familia, terreno aparente para hacer 15 a 20 casas, teniendo un martillo a su favor de 17½ vs de frente por 34 vs. 12 cents. de fondo que se presta para edificar una gran casa de vecindad, teniendo en su mayor parte el terreno 85 vs de fondo.
Creemos inutil hacer toda recomendacion por ser el unico terreno que se encuentra en una situacion tan central, pues podemos asegurar que no se encuentra a la redonda de la plaza de la Victoria una extension tan grande de tierra al Norte, y lo unico a edificar en aquella localidad.
Titulos garantidos del siglo pasado.
El comprador abonara el 4 p⅝ al firmar el boleto de compra-venta.
